

Other Chapter News

We will once again be sending Corey Aiken, a student from Chateaugay, to participate in the Trail Maintenance Project run by ADK. Corey will attend a session in July working on the Big Slide Trail in the High Peaks. A challenge indeed! He has all the necessary equipment, most of which was accumulated from last year's project. Additionally, Corey is being sponsored by the Chateaugay School Science Club and will be doing the Orebed Brook trail in August. Thank you to all who supported these efforts of our chapter.

John and Burgess Lawrence

John and Burgess were founding members of our chapter. John passed away in November and Burgess has moved to be near her daughters in Maine. We have lost two dedicated members of our chapter. John held every office possible with Burgess always beside him. There are so many memories, hikes, climbs, ski trips and canoe trips. John worked on trail crews in the High Peaks and at the Fish and Game Club in Malone. Both John and Burgess were involved in the Adopt-a-Lean-to program and were recipients of the White Birch Award. John's ski hat was a funny orange toque, I will always picture him skiing towards us across Avalanche Lake on a snowy morning. Here comes John! We will miss Burgess' laughter; even when John was so ill she would try to look on the bright side. Good, good, friends to us and to each other. They are missed!
